WORK EXPERIENCE

UI/UX Developer

Cor Tech Group US LLC

March 2020 - June 2020

- Designed and developed user interface and user experience for whole app with HTML and CSS.

Full Stack Developer

Teodesk

October 2019 - March 2020

- Developing small front end features on my first ever project with React.js and Redux until the end of the project.

March 2020 - present

- Switched to Knockout.js - Java app, which is created for project management.
- Rewrote whole Profile page css (less) file.
- Implemented timeline view.
- Implemented shift, control click features for timeline view for selecting project children or one by one task selection.
- Implemented google maps with built in tasks.
- Implemented user roles features.
- Fixed some other bugs, made hot-fixes, etc.
